About Wolfram Lohr

Wolfram Lohr since 2003 have been making Luxury Leather Goods for men and ladies. Making classic belts, wallets, handbags, beautifully shaped rucksacks, practical messenger bags and desk accessories. Products made in England with a contemporary twist.

Grown in the UK Craft scene. Travelling to USA, Paris, Frankfurt and London to trade with the brand has opened up opportunities and honed our experience with batch productions. Still obtaining the highest quality through design and the leather we choose. We are mostly using vegetable tanned leather from Italy tanned by artisan with decades of experience.

Seeing the importance of UK manufacturing needing to survive and grow. Wolfram Lohr aims to bridge the gap between mass production and the craft person.
